- SQL
- HTML
- Python
- JavaScript
- Problem Solving
- Teamwork
- Communication
- Time Management
- GitHub
- Visual Studio

LANGUAGE

- English
- Afrikaans

ABOUT ME

I am a motivated Information Technology student with a passion for software development and problem solving. I am eager to apply my technical skills, learn new technologies, and gain practical experience in the Information Technology Industry.

PROJECTS

Smart Banking System

2024 - 2nd Semester

We developed a fully functional banking system from the ground up as a university project, implementing essential banking operations and bussiness logic.

Enterprise Network Design

2026 - 1st Semester

Me and my group members had to create and test a complete bussiness network using Cisco Packet Tracer. The project involved connecting and configuring different network devices and developing a budget plan for the equipment and infrastructure required.

Sales BI Dashboard

2025 - 2nd Semester

With this project we had to create a sales dashboard that uses a NoSQL database to store and manage sales data. The project used real-world data to create reprotos and provide usefull infromation for analysing business performance.
